

4G Modem Configurations (All Product Lines)

ZPE Systems announces the end-of-life of all 4G modem-configured devices. The last day to order affected products is December 31st, 2026. Customers are encouraged to migrate to equivalent product configurations with a 5G modem, which maintains backwards compatibility with 4G networks where 5G service is unavailable.

Orders for affected 4G/LTE configurations will be accepted through the Last Order/Sale Date (LOD), subject to availability (until stock lasts).

Announcement Milestones

Milestone Date	Description
May 31, 2026	End-of-Life Announcement (EOL) is the public notification date that commences the discontinuation process for the affected 4G/LTE configurations.
December 31, 2026	Last Order/Sale Date (LOD) is the last date on which purchase orders may be placed for the affected product, subject to availability (until stock lasts).
March 31, 2027	Last Ship Date (LSD) is the last possible ship date that can be requested for the affected product.
December 31, 2031	End of Support Date (EOS) is considered the final milestone. It is the last date to receive engineering and technical support services for the affected product(s) under a service contract or by warranty terms and conditions.

Where a direct 5G replacement SKU exists, it is listed in Table 2. *In some cases, only a close match is available*; customers should contact ZPE Systems or their authorised channel partner for guidance.

LSR, MSR	M2-CELL-B1		No Direct Replacement Currently Available

We recommend the following steps to ensure a smooth transition:

1. Identify any deployments that standardized on 4G/LTE modem configurations and plan a transition to the corresponding 5G replacement SKUs.
2. In case customers have questions, contact your ZPE Systems sales representative or authorized channel partner.

Full List of affected system SKUs: Table 2 includes representative mappings for 4G modem modules and selected hardware configurations. For the most current and complete SKU list (including all variants), please refer to the internal source spreadsheet maintained by Product Management.
